Dear Dean

Subject: Work Placement for Torque IT-Umsobomvu Learners

Torque IT would like to extend a word of appreciation and gratitude for the opportunity given by you to host our learners to work as interns.

The feed back that the interns gave to Torque IT was extremely positive. They reported that they gained lot of experience and were given support whenever they needed it. They also learnt so many things about personal relations, taking responsibility and business practices and principles. All of this made them appreciate the whole experience and the opportunity afforded to them.

In light of the invaluable knowledge and experience our learners gained during the period spent with you, we truly thank each and every individual who was involved in the mentoring and grooming of these young people. We hope that in future we can rely on the relationship we have already built.

Thanks once more for the support.

Yours faithfully

Lesego Motshwane
